

HelioMicrofinishing

Polishing performance at a new level

The "HelioMicrofinishing" polishing band from Daetwyler Graphics for precise polishing of the cylinder surface

Daetwyler Graphics new **HelioMicrofinishing** polishing bands for even better polishing performance. Through the unique selection of the grains, we have succeeded in improving the polishing results with regard to homogeneity and handling even further.

In detail, the Daetwyler Graphics **HelioMicrofinishing** bands offer the following advantages:

- improved grain quality by 3D selection
- very homogeneous surface
- highest possible performance
- high process reliability
- long life time
- best price-performance ratio
- Clear labeling on band and packing allows easy identification of the **HelioMicrofinishing** Band
- **HelioMicrofinishing** bands replace MicrofinishingFilm one to one maintaining identical Rz results (no or minimal program adjustment required)

Convincing arguments for using our **HelioMicrofinishing** polishing bands. In addition, our specialists support you with their extensive knowledge and many years of experience. On request, they can also assist to optimize polishing programs according to your requirements.

HelioMicrofinishing

Process reliability with highest polishing performance

The following overview shows the HelioMicrofinishing bands corresponding to the MicrofinishingFilm of 3M

HelioMicrofinishing			MicrofinishingFilm (3M)	
Article	Product	Packing	Article	Product
601060	HelioMicrofinishing 9μ 100mm 50m	4 rolls/Box	087638	MicrofinishingFilm 9μm 272L 100mm 50m
